is made according to our own ideas and those of our customers. We know more about it than the maker does, because we are closer to the demand. We know what you want, and we get it. When the maker gets through we take a hand at it. If it isn't right, back it goes. We resew every button. It isn't much to do, but other people don't do it. We don't sell the kind that is too cheap to be good, but some numbers run down as low as 50c., and are backed by "Your money back if you want it."
